April Meeting at Pepin

Wednesday, April 10, 2019, 6:30PM

"Google Hardware Part 2"

Google has integrated Google Home devices, Home automation, Security, Google Assistant, Android Auto and Nest Cameras all into one (mostly) linked system. Here's what it can do for you.

Due to technical difficulties at the March meeting, Merle was unable to cast the phone screen to the big screen. That's fixed now (dead power cube of all things) and hopefully demo some of the things we talked about last month.

Please plan to attend!

Do you know any good presenters? We need to fill the May meeting. Volunteers from the membership? Then June, July and August we suspend meetings for the summer.
